

- Towed Vibratory Roller AH 150

for tractors from 40 to 120 HP

POMA – makes road building and maintenance easy

The POMA-Towed Vibratory Roller AH 150 is designed for use with standard tractors with drawbar mounted on three-point-linkage class 2 and PTO 540 RPM – 3/8".

This is a unique machine for road building, maintenance and for landscaping. The high impact-force makes a very good job of compacting the gravel.

- towing machine for roadbuilding is a standard Tractor
- very safe driving system: PTO-shaft – gearbox – oil-pump – Oilmotor – counter weight
- high impact force
- no vibration on the tractor because of rubber buffers.
- dirt removing plastic strips
- highly economical compacting machine for many years of lifetime.
- highly efficient when used together with POMA grading equipment.

Specifications:

Total length:	2800 mm
Total width:	1800 mm
Working Width:	1500 mm
Roller diameter:	1000 mm
RPM of PTO:	540/min
Frequency:	up to 40 Hz
Impact force:	60 kN
Amplitude:	0.8 mm
Working speed:	0.5 bis 2 km/h
Weight:	3000 kg
